Mobile	Android, Jetpack Compose, Kotlin Multiplatform, Room
Backend & Data	Ktor, Spring Boot, Exposed, PostgreSQL, MySQL, SQL Server
Tools	Git/GitHub, Docker, Testcontainers, Gradle, Linux, Terminal, Postman

EXPERIENCE

Full-Stack Development Intern · UPV, Valencia — Apr – Jun 2026

- Designed and built **LibreGuardia** from scratch, a full-stack app to manage teacher absences and on-call duties: database, backend, cross-platform client, automated tests and Docker deployment.
- Led a team of classmates: planned sprints, tracked work on GitHub boards and reviewed every pull request.

Software Development & BI Intern · Ahora Software, Valencia — May 2025

- Built reports and dashboards with Power BI and SQL Server, and low-code apps with Flexygo.
- Trained on the company's ERP (AHORA 5) in an intensive 2.5-week internship.

Web Development & Technical Support Intern · Doctor Phone, Valencia — Apr – Jun 2024

- Built the shop's website from scratch (HTML, CSS, JavaScript), handling hosting, domain and SEO.
- Designed its new logo and storefront sign, printed full-size for the shop window.
- Attended customers and repaired phones, PCs and laptops.

PROJECTS

- **LibreGuardia** (in development): Kotlin, Ktor, PostgreSQL, KMP, Docker. Final degree project, graded 10/10; my school expressed interest in funding it.
- **Tennis Umpire** (in development): native Android app for live tennis scoring. Kotlin, Jetpack Compose, Room.
- **Home Lab**: self-hosted Linux servers with a WireGuard VPN, NFS, CUPS, NextCloud, videogames and more.
